

Fairstone Brewin 5

Investment Aim

The portfolio is designed to provide risk adjusted returns. It aims to achieve capital appreciation and reduce investment risk through diversification across asset classes and geographies.

This portfolio is managed to maximise risk adjusted returns within a target volatility range of 8.3% and 11.8% over rolling 10-year time periods. This is not guaranteed, and actual volatility may fluctuate outside of these boundaries.

Ranking the risk on a scale of between 1 and 10, where 1 is the lowest, we place this portfolio as 5.

Investment Adviser's Market Commentary

POWERED BY

Brewin
Dolphin

Investment Adviser

The portfolio is managed through RBC Brewin Dolphin's network of investment professionals. The asset allocation team meets monthly to decide upon the top-down strategy for the portfolio.

April saw equity markets recover as US-Iran diplomatic dialogue eased geopolitical tension, though elevated and volatile oil prices underscored how fragile the ceasefire remains. Central banks held interest rates steady but signalled they may raise them in future. Energy-importing currencies weakened sharply—the Japanese yen fell to 160 per dollar before intervention to support it—while gold faced headwinds as central banks slowed their reserve accumulation.

Bond and equity markets remained resilient despite these headwinds, supported by strong company earnings and continued investor inflows. Large technology companies led gains: Alphabet's cloud computing business surged 63%, while Amazon's cloud services grew 28%. Energy and commodity-focused stocks performed well, while software and growth-oriented companies lagged behind.

The outlook remains finely balanced. Strong company profits support stock prices, yet valuations for major tech companies have become stretched. Combined with unresolved geopolitical risks and rising inflation, central banks may need to raise interest rates further—which could slow economic growth and put downward pressure on both stocks and bonds.

Funds In Focus - MI Select Manager

The fund breakdown overleaf includes funds under the name of MI Select Managers. These are funds that are managed by Brewin Dolphin which allow them to access investments at a lower cost and also bespoke arrangements on behalf of clients.

The breakdown below shows the underlying holding of these funds.

Target Market

Access to the portfolios is only available to investors on the recommendation of a financial adviser and it is the role of the adviser to determine the appropriateness and suitability of the portfolio to each investor's own personal needs, objectives and preferences.

Type of investors: Given the nature of non-complex UCITS funds the service is suitable for retail investors, professional clients and eligible counterparties. The service is predominantly designed for the use of retail investors.

Investors' knowledge and experience: Investors with basic, informed or advanced knowledge and experience of capital markets and investment risks and of funds and their characteristics.

Clients' financial situation with a focus on the ability to bear losses: Investors have a tolerance to fluctuations in capital invested and potential capital loss.

Clients' risk tolerance and compatibility of the risk/reward profile of the product with the target market: Due to the volatility of the markets in which the service may invest e.g. equity, bond and property markets the service has a risk and reward profile that is compatible with clients who have a risk tolerance aligned to the Investment Aim of the portfolio. Investors should be willing to accept price fluctuations in exchange for the opportunity of possible higher returns.

Clients' objectives and needs: Depending on the duration of the investment the portfolio may be suitable for clients who have a medium-term investment horizon (at least 5 years).

Clients who should not invest (the 'negative-target market'): This portfolio is deemed incompatible for clients who require full capital protection and/or are seeking on-demand full repayment of the amounts invested or who are fully risk averse/have no risk tolerance.
