

# Fairstone Nova 6

## Portfolio Objective

The Portfolio is designed to provide risk adjusted returns. It aims to achieve capital appreciation and reduce investment risk through diversification across asset classes and geographies.

This portfolio is managed to maximise risk adjusted returns within a target volatility range of 10.0-13.6% over rolling 10-year time periods. This is not guaranteed, and actual volatility may fluctuate outside of these boundaries.

Ranking the risk on a scale of between 1 and 10, where 1 is the lowest, Fairstone place this portfolio as 6.

The Portfolio is likely to be predominantly invested in fixed income and equities.

## \* Past Performance

Please note performance prior to 28 February 2025 is based in simulated past performance.

In order to provide an indication of how the portfolio would have performed in the past, we have produced simulated past performance from 1 December 2021 to 31 January 2025. The simulated performance is based on the actual performance history of the funds within the portfolios using our historical tactical asset allocation, rebalanced to quarterly.

Full details are available on request. The simulated past performance is not a reliable indicator of future performance.

## Portfolio Target Market Details

Access to the portfolios is only available to investors on the recommendation of a financial adviser and it is the role of the adviser to determine the appropriateness and suitability of the portfolio to each investor's own personal needs, objectives and preferences.

**Type of investors:** Given the nature of non-complex UCITS funds the service is suitable for retail investors, professional clients and eligible counterparties. The service is predominantly designed for the use of retail investors.

**Investors' knowledge and experience:** Investors with basic, informed or advanced knowledge and experience of capital markets and investment risks and of funds and their characteristics.

**Clients' financial situation with a focus on the ability to bear losses:** Investors have a tolerance to fluctuations in capital invested and potential capital loss.

**Clients' risk tolerance and compatibility of the risk/reward profile of the product with the target market:** Due to the volatility of the markets in which the service may invest e.g. equity, bond and property markets the service has a risk and reward profile that is compatible with clients who have a risk tolerance aligned to the Investment Aim of the portfolio. Investors should be willing to accept price fluctuations in exchange for the opportunity of possible higher returns.

**Clients' objectives and needs:** Depending on the duration of the investment the portfolio may be suitable for clients who have a medium-term investment horizon (at least 5 years).

**Clients who should not invest (the 'negative-target market'):** This portfolio is deemed incompatible for clients who require full capital protection and/or are seeking on-demand full repayment of the amounts invested or who are fully risk averse/have no risk tolerance.
